With Thyme
& Licorice

کھانسی کا شربت

حـڈریـزا

IVY Leaf Extract
With Thyme
& Licorice

Description
Hadriza Syrup is specially formulated for restoring normal respiratory functions: Hadriza Syrup contains natural herbal extracts acknowledged by tradition as well as present-day science for their beneficial role as expectorant, cough suppressing & soothing properties. Ivy leaf is a well-known herb which is being used as an expectorant & mucolytic agent in USA & Europe since decades. Thyme works as an antitussive and expectorant. Licorice has soothing effect on throat and antitussive in action. European Medicine Agency (EMEA) has proven & acknowledged the benefits of these herbs in the symptoms of bronchitis, dry cough and inflammation of the respiratory tract.

Composition:
Each 5ml Contains:
Hedera helix (BP) 35mg
Thymus vulgaris (BP) 20mg
Glycyrrhiza glabra (BP) 20mg

Uses:
Hadriza Syrup contains natural herbal extracts that are blended to strengthen and support healthy lung functions and support the mucus membrane. It works as bronchodilator, cough suppressant, expectorant, mucolytic and spasmolytic agents. It relieves the chest congestion soothes the mucus membrane of bronchial walls & restores breathing.

Ivy Leaf extract (Hedera helix):
Ivy Leaf extract is an expectorant and mucolytic in action. It helps to relieve the symptoms of bronchitis and cough by loosening the mucus and improving the air flow to the lungs. Phenols and saponins are mainly responsible for mucolytic action which is effective for the patients with bronchitis and asthma. EMEA has documented the beneficial effects of Ivy leaf extract.

Thyme extract (Thymus vulgaris):
Thyme works as an antitussive and expectorant. It helps to relieve chest congestion and excess bronchial mucus. Thyme has a variety of natural flavonoids responsible for restoring normal lung function. EMEA has documented the beneficial effects of thyme.

Licorice extract (Glycyrrhiza glabra):
Licorice has soothing effect on the throat and antitussive in action. It helps to reduce throat irritation and dry cough. It contains isoflavones which are mainly responsible for relieving cough and helps to reduce bronchial spasms. EMEA has documented the beneficial effects of Licorice.

Warnings & Precautions:
Pregnancy & Lactation
Hadriza Syrup contains natural herbs with high safety profile. All herbs present in Hadriza Syrup have been recognized as safe. However, preparations should generally be taken during pregnancy only after medical advice.

Side Effects:
Hadriza Syrup is generally safe and well-tolerated. In few cases, it may have very mild laxative effect.

Drug Interactions:
No adverse effects have been reported regarding the simultaneous use of Hadriza Syrup along with other medications.
